ABOUT DISCOVERU

A broader perspective on student development.

DiscoverU is a future-readiness ecosystem designed to help students grow beyond marks, degrees and academic pressure.

A student's growth cannot be understood through academic performance alone. DiscoverU brings structure to the many ways students explore, develop and grow, creating a more complete view of their journey over time.

Education gives students knowledge, academic foundations and qualifications. DiscoverU gives experiences a more intentional place in the student journey — alongside what they learn, not instead of it.

Our Mission

To create a structured environment where students can explore their interests, develop meaningful capabilities, recognise their progress and approach important choices with greater awareness.

Our Vision

To create a future where every student has the opportunity to understand themselves, develop their capabilities and move forward with greater confidence and awareness.

OUR VALUES

ASTRONGER TOMORROW
FOR EVERY STUDENT.

Student First

Every experience begins with the student's needs, stage and individuality.

Growth Through Practice

Capabilities strengthen through participation, practice and continued effort.

Evidence Over Assumption

We value patterns that emerge through experience rather than conclusions based on a single moment.

Open Possibilities

We give students room to explore, evolve and discover different directions over time.

DiscoverU

EXPLORE
DEVELOP

DISCOVER

WHY DISCOVERU

Where discovery becomes development.

Because every student has **unique interests, strengths** and possibilities — and their growth is much more than just marks and academics.

01

18-Dimension View

A broader lens spanning thinking, creativity, communication, wellbeing and future exploration.

02

Mission Variety

A varied mix of missions to think, create, experiment, build and express.

03

Discovery Signals

Emerging interests and strengths observed across experiences reveal patterns over time.

04

Progressive Challenges

From quick explorations to deeper challenges that encourage practice and refinement.

05

Next Unlock

Each experience can open another possibility, with no predetermined path.

06

Growth Recognition

Celebrates effort, consistency, creativity and progress beyond academic results.

07

Parent Moments

A simple way for parents to observe, discuss and stay connected.

08

Discovery Insights

Experiences and reflections come together into a richer picture of what began to emerge.

09

QR Experiences

Physical activities extend into guided digital demonstrations and interactive challenges.

FOR PARENTS

See what your child naturally enjoys, and how they're growing.

The activities children return to, the questions they ask and the challenges they willingly take on offer clues to emerging interests. DiscoverU makes them visible.

THE DISCOVERY MODEL

A Holistic Model for Lifelong Growth.

DiscoverU follows a **360° development model** that brings together multiple areas of growth through structured, activity-based learning experiences.

Academic & Conceptual Learning
Strengthens understanding and application.

Thinking & Problem Solving
Builds logical thinking and better decision-making.

Observation, Curiosity & Inquiry
Encourages questioning and exploring.

Creativity & Innovation
Helps express ideas and try new possibilities.

Communication & Expression
Builds confidence in sharing and collaboration.

Social & Emotional Development
Develops empathy, relationships and emotional strength.

DiscoverU
360°
STUDENT DEVELOPMENT

Personal Growth & Character
Builds values, self-awareness and resilience.

Practical & Life Skills
Prepares for real-life situations and everyday independence.

Digital & Technology Literacy
Builds digital confidence and responsible use.

Financial, Environmental & Social Awareness
Creates awareness about self, society and the world.

Physical Development & Wellbeing
Supports healthy habits, energy and overall wellness.

Future & Career Exploration
Helps explore interests, options and next steps with clarity.

OUR APPROACH

Development through Experience.

Explore
Discover interests through activities and experiences.

Experience
Learn by doing with real-world connections.

Reflect
Observe patterns, understand progress and build insights.

Grow
Build capabilities and move toward a confident future.

THE SIX-MONTH EXPERIENCE

A structured journey of exploration and growth.

DiscoverU is a 6-month, activity-based program designed to help students explore, **experience** and **develop** across multiple dimensions. Each month brings a mix of engaging activities, real-life experiences, reflection and guided learning.

01 Explore
Students explore different areas through engaging activities and experiences.

02 Experience
Hands-on activities, real-world tasks and creative challenges help them learn by doing.

03 Reflect
Regular reflection helps students understand their interests, strengths and areas to develop.

04 Build
Students develop skills, confidence and habits through consistent practice.

05 Track
Progress is captured through a dedicated Discovery & Progress Kit.

06 Grow
Over six months, students gain greater clarity, confidence and readiness for the next stage.

What DiscoverU Is Not.

DiscoverU is different from traditional academic or coaching programs. It is not:

Not a Coaching Class
We do not focus only on marks, tests or exam preparation.

Not a Career Counseling Session
We do not give one-time advice or fixed career options.

Not a Theoretical Program
It is not just about concepts, lectures or academic content.

Not Limited to Career Only
It covers personal, social, practical and life skills — not just future career choices.

Not a One-Time Event
It is a structured 6-month journey with continuous experiences and reflection.

Not a Replacement for School
It complements what students learn in school, not instead of it.

OUR BELIEF

Real growth happens through experience.

When students explore, experience, reflect and build, they develop a deeper understanding of themselves and the world around them — preparing them for future opportunities with greater confidence.

DiscoverU

DISCOVERU 360° JOURNEY

18 Development Areas for Lifelong Growth.

DiscoverU follows a 360° development model with 18 interconnected areas. These areas work together through structured, activity-based experiences to help students explore, develop and grow.

01 **Academic & Conceptual Learning**
Understand and apply knowledge.

02 **Thinking & Problem Solving**
Think clearly and solve problems.

03 **Observation, Curiosity & Inquiry**
Notice more and explore deeply.

04 **Creativity & Innovation**
Imagine, create and try new ideas.

05 **Communication & Expression**
Speak, write and express better.

06 **Social & Emotional Development**
Build empathy and positive relationships.

07 **Personal Growth & Character**
Build values and self-discipline.

08 **Practical & Life Skills**
Learn skills for everyday life.

09 **Digital & Technology Literacy**
Use technology confidently.

10 **Financial Awareness**
Understand money and make better choices.

11 **Environmental Awareness**
Care for nature and make sustainable choices.

12 **Social Awareness & Citizenship**
Be aware and act responsibly.

13 **Physical Development & Wellbeing**
Stay active and healthy.

14 **Future & Career Exploration**
Explore interests and plan ahead.

15 **Visual Arts & Design**
Develop creativity and visual skills.

16 **Music & Performing Arts**
Express through music and performance.

17 **Leadership, Teamwork & Collaboration**
Work together and create impact.

18 **Entrepreneurship & Innovation**
Identify opportunities and solve problems.

OUR BELIEF

All areas work together to build a stronger tomorrow.

Students do not develop in isolated areas. Experiences, missions and reflection across these 18 areas help them build a more complete understanding of themselves and prepare for future opportunities with confidence.

DiscoverU

DISCOVERU JUNIOR • KG - 2

A Little More Wonder, A Lot More Discovery.

DiscoverU Junior brings curiosity to life through playful activities that help children observe, imagine, create and express themselves.

What Children Explore

LOOK & NOTICE
- See New Things
- Listen Closely
- Spot Details
- Notice What Changes

THINK & WONDER
- Ask Questions
- Find Patterns
- Solve Little Problems
- Imagine What Could Be

CREATE & EXPRESS
- Draw & Make
- Tell Stories
- Sing & Move
- Share Ideas

DISCOVER ME
- What I Love
- What I Can Do
- How I Feel
- What I Want to Try

The 6-Month DiscoverU Junior Experience

26 weeks of curiosity, creativity, self-expression and real-world exploration — thoughtfully designed for growing minds.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	**Discover Me**	• About Myself • Things I Love	• My Identity Card • My Name Story	Self-awareness
02	**My Curious World**	• People Around Me • Discover Nature	• Nature Adventure • My Family	Greater awareness of the world
03	**Think, Wonder and Imagine**	• Think and Play • Solving Problems	• Brain Detective • Sort Things	Early problem-solving and thinking skills
04	**Make Try & Explore**	• Creativity • My Experiments	• Creative Expression • Explore Materials	Creative expression
05	**Be Brave**	• Confidence • Emotional Growth	• Express My Feelings • Mood Faces	Emotional strength and confidence
06	**Discover My Possibilities**	• Explore Possibilities • What do I Want to Try?	• Interest Profile • Things I Do Well	Awareness of unique strengths

What Children Gain

- Stronger Observation
- Greater Confidence
- Better Expression
- Early Sense of Possibilities

DiscoverU

DISCOVERU EXPLORER • GRADE 3-5

Where Questions Become Possibilities.

DiscoverU Explorer helps children in Grades 3–5 build curiosity, ask better questions, investigate ideas, solve problems and make things — while understanding how their thinking works.

What Children Explore

LEARN WITH PURPOSE

- See the World Around Me
- Find What Interests Me
- Connect Learning to Life
- Stay Curious Every Day

QUESTION & INVESTIGATE

- Ask Better Questions
- Observe and Notice
- Explore Ideas
- Discover How Things Work

THINK & SOLVE

- Find Patterns
- Solve Real-life Problems
- Try Different Ideas
- Understand My Thinking

CREATE & BUILD

- Use My Imagination
- Make, Draw and Express
- Experiment with Ideas
- Share My Creations

The 6-Month DiscoverU Explorer Experience

26 weeks of curiosity, creativity, real-world exploration and skill-building — thoughtfully designed for growing minds.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	**Understand My Mind**	• Who Am I? • My Strengths	• My Identity Card • My Interests Map	Self-awareness
02	**Ask, Find, Understand**	• People Around Me • How Things Work	• Observation Activities • Question Hunt	Greater awareness of the world
03	**Think, Reason, Solve**	• Patterns and Logic • Problem Solving	• Brain Games • Real-life Scenarios	Early problem-solving and thinking skills
04	**Create, Build, Experiment**	• Creativity • Hands-on Learning	• DIY Projects • Design and Make	Creative expression
05	**Beyond Myself**	• People, Community • Environment	• Kindness Activities • My Community Map	Social awareness and responsibility
06	**Skill Mapping**	• Explore Possibilities • What I Like to Try	• Interest Explorer • My Big Ideas Board	Awareness of unique strengths and interests

What Children Gain

- Stronger Curiosity
- Better Problem Solving
- Greater Confidence
- Early Exploration of Interests

DiscoverU

DISCOVERU STRENGTHS • GRADE 6-8

Move Beyond What You Know, Discover What You Can Do.

DiscoverU helps students in Grades 6–8 understand how they work, strengthen what they can do, think with purpose, make better choices, collaborate effectively and take ownership of their next step.

What Children Explore

KNOW YOUR STRENGTHS
- What I Do Well
- How I Work
- What Drives Me
- What I Can Improve

THINK WITH PURPOSE
- Ask Questions
- See Different Sides
- Think Ahead
- Make Choices

STRENGTHEN YOUR SKILLS
- Learn New Skills
- Practise With Purpose
- Learn From Resources
- Show What I Can Do

MAKE THINGS HAPPEN
- Share Ideas
- Work Together
- Take Responsibility
- Take Action

The 6-Month DiscoverU Experience

26 weeks of self-discovery, skill-building and future readiness — thoughtfully designed for growing teens.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	Know My Potential	• My Personal Profile • Understanding My Style	• Activities That Absorb Me • Where I Stand Out	• Why I Start • Ease Vs Efforts
02	Analysis And Decide	• What Happens Next? • What I Am Missing	• Hidden Details • Choosing Under Pressure	• Risk Or Reward • Situations Scan
03	Train For Excellence	• Skill Foundation • Refining My Techniques	• Sharpen My Techniques • Responding To Failure	• Skill Breakdown • Weak Spot Repair
04	People And Influence	• Understanding Different People • Taking Responsibility	• Active Listing • Productive Conversations	• One Minute Speech • My Skills
05	Turn Ideas Into Results	• Spot And Opportunity • Plan And Execution	• Anthropreneur Thinking • Measuring Outcomes	• Action Blueprint • Resource Planning
06	Charting My Direction	• My Personal Roadmap • World Beyond School	• Real Life Exposure • What I Have Learned About Myself	• Day In Life • Roadmap A|B|C|

What Student Gain

- Stronger Self-awareness
- Clearer Direction
- Better Life Skills
- Greater Confidence for Next Stage

DiscoverU

DISCOVERU DIRECTION • GRADE 9-10

Discover who you are, Build what you can be.

DiscoverU helps students in Grades 9–10 understand themselves better, identify their strengths, explore opportunities and build the right skills to make confident academic and career choices.

What Children Explore

KNOW YOUR STRENGTHS

- Understand Priorities
- Examine Self-Image
- Recognise Influences
- Know Why You Choose

KNOW WHERE YOU STAND

- Read Academic Signals
- Identify Strengths & Gaps
- Spot Opportunities
- Set Improvement Priorities

BUILD YOUR CAPABILITY

- Understand Thinking Styles
- Identify Existing Skills
- Recognise Skill Gaps
- Strengthen Self-Belief

EXPLORE WHAT COMES NEXT

- Understand Academic Fit
- Compare Post-10 Routes
- Explore Career Ecosystems
- Shape Your Direction

The 6-Month DiscoverU Direction Experience

26 weeks of self-awareness, academic reflection, capability mapping, interest analysis, pathway exploration and direction building.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	**Self Awareness**	• Identity • Personal Patterns	• Self Description • Influence and Perspective	• Identity Snapshot • Everyday Behaviour
02	**Swot Capability**	• Available Resources • Current Limitations	• Weakness And Gap • Opportunities And Threats	• Strength Story • Opportunities Scan
03	**Thinking Skills, Self Believe**	• How I Function • What I Can Develop	• Problem Handling • Analytical And Creative Thinking	• Skill Inventory • Self Analysis
04	**Interest and Academic Fit**	• Understand What Attracts Me • Academic & Personal Fit	• Interest Vs Influence • Learning Interest and Enjoyment	• Subject Interest Map • Academic Fit Snapshot
05	**Stream Career Exploration**	• Understand Available Choices • Career Possibility	• Stream Landscape • Career Exploration and Reality	• Career Family Map • Skill Based Route Map
06	**Dimension and Choices**	• Brief, Evidence Together • Plan What to Explore Next	• Evidence Review • Route Comparison	• Profile Synthesis • Personal Direction Profile

What Student Gain

- Stronger Self-awareness
- Clearer Academic Direction
- Better Decision Making
- Confidence for Next Stage

DiscoverU

DISCOVERU PATHWAYS • GRADE 11-12

Know the Path, Prepare for the Next Step.

DiscoverU Pathways helps students in Grades 11–12 understand pathways, prepare for entry, gain real-world experience and build evidence for their next step.

What Children Explore

WHAT COMES NEXT
- Step Beyond School
- Explore Higher Education
- Prepare for Independence
- Plan for Practical Realities

MAP THE PATHWAY
- Explore Course Structures
- Compare Qualifications
- Explore Specialisations
- Understand Institutions

PREPARE FOR ENTRY
- Check Eligibility
- Understand Selection
- Identify Prerequisites
- Prepare Applications

GET WORK-READY
- Work on Practical Projects
- Learn From Professionals
- Experience Different Roles
- Build Portfolio Evidence

The 6-Month DiscoverU Pathways Experience

26 weeks focused on transition, pathway structure, entry preparation, real-world experience, evidence building and next-step planning.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	**Beyond School**	• Education Beyond School • The Next Environment	• School to College Transition • Time and Financial Planning	• Practical Life Budget • Beyond School Planner
02	**Understanding My Route**	• Understanding Institutions • Understanding the Curriculum	• Connecting Study Stages • Pathway Mapping	• Pathway Blueprint • Institution Comparison
03	**The Entry Roadmap**	• From Application to Admission • What Must I Have?	• Application and Documentation • Admission Workflow	• Eligibility Gap Finder • Exam Preparations
04	**Step Into The Real World**	• Work on Real Problems • Real-World Projects	• Industry Interactions • Learning From Practice	• Ask Someone in the Field • Step Into The Role
05	**My Work Portfolio**	• Portfolio Development • Document What I Have Done	• Portfolio Structure • Presenting My Work	• Build My Achievement File • Present Myself Online
06	**From Grade-12th to Whats Next**	• My Main and Backup Plans • Three Year Roadmap	• Skill Building • Stake Holder Analysis	• Next Stage Action Blueprint • Route A | Route B Planner

What Student Gain

- Stronger Self-awareness
- Clearer Academic Direction
- Better Decision Making
- Confidence for Next Stage

DiscoverU

DISCOVERU CAREER LAUNCH • GRADUATION

Know What You Bring, Build What You Need.

Graduation is more than completing a degree. DiscoverU Career Launch helps students understand their current position, build relevant capabilities, gain practical experience, create evidence of their work and prepare for real opportunities.

Know Your Starting Point

- Understand Your Journey
- Review Your Experience
- Explore Your Choices
- Take Ownership

Explore the Real World

- How Work Happens
- Understand Real Roles
- What Work Requires
- Common Challenges

Build Your Capability

- Assess Your Current Skills
- Identify Skill Gaps
- Set Development Priorities
- Improve Through Practice

Turn Learning Into Proof

- Gain Real Experience
- Build Projects
- Create Portfolio Evidence
- Show What You Can Do

Your 6-Month Discovery Journey

26 weeks focused on transition, pathway structure, entry preparation, real-world experience, evidence building and next-step planning.

MONTH	THEME	KEY FOCUS AREAS	SAMPLE ACTIVITIES	OUTCOME
01	**Know My Current Reality**	• My Journey So Far • My Strengths & Interests	• My Learning Timeline • Skills & Achievements Mapping	Clear understanding of current self
02	**Understand My Career Reality**	• Industry & Job Landscape • Career Options	• Industry Research • Career Exploration Tasks	Clarity on career possibilities
03	**Build My Capability**	• Skill Gaps & Development • Technical & Soft Skills	• Skill Assessment • Learning Plan	Focused skill development
04	**Experience, Ideas & Entrepreneurship**	• Real-World Expsoure • Project Thinking	• Mini Project / Case Study • Explore Startup Ideas	Hands-on experience and new ideas
05	**Build My Professional Proof**	• Portfolio & Evidence • Practical Projects	• Portfolio Development • Project Showcase	Tangible proof of capabilities
06	**Position Myself & Launch**	• Career Readiness • Next Steps & Opportunities	• Personal Career Plan • Interview Prep & Networking	A clear plan for what's next

What Student Gain

- Stronger Self-awareness
- Clearer Career Direction
- Real-World Readiness
- Confidence for What's Next
